**QHSE**

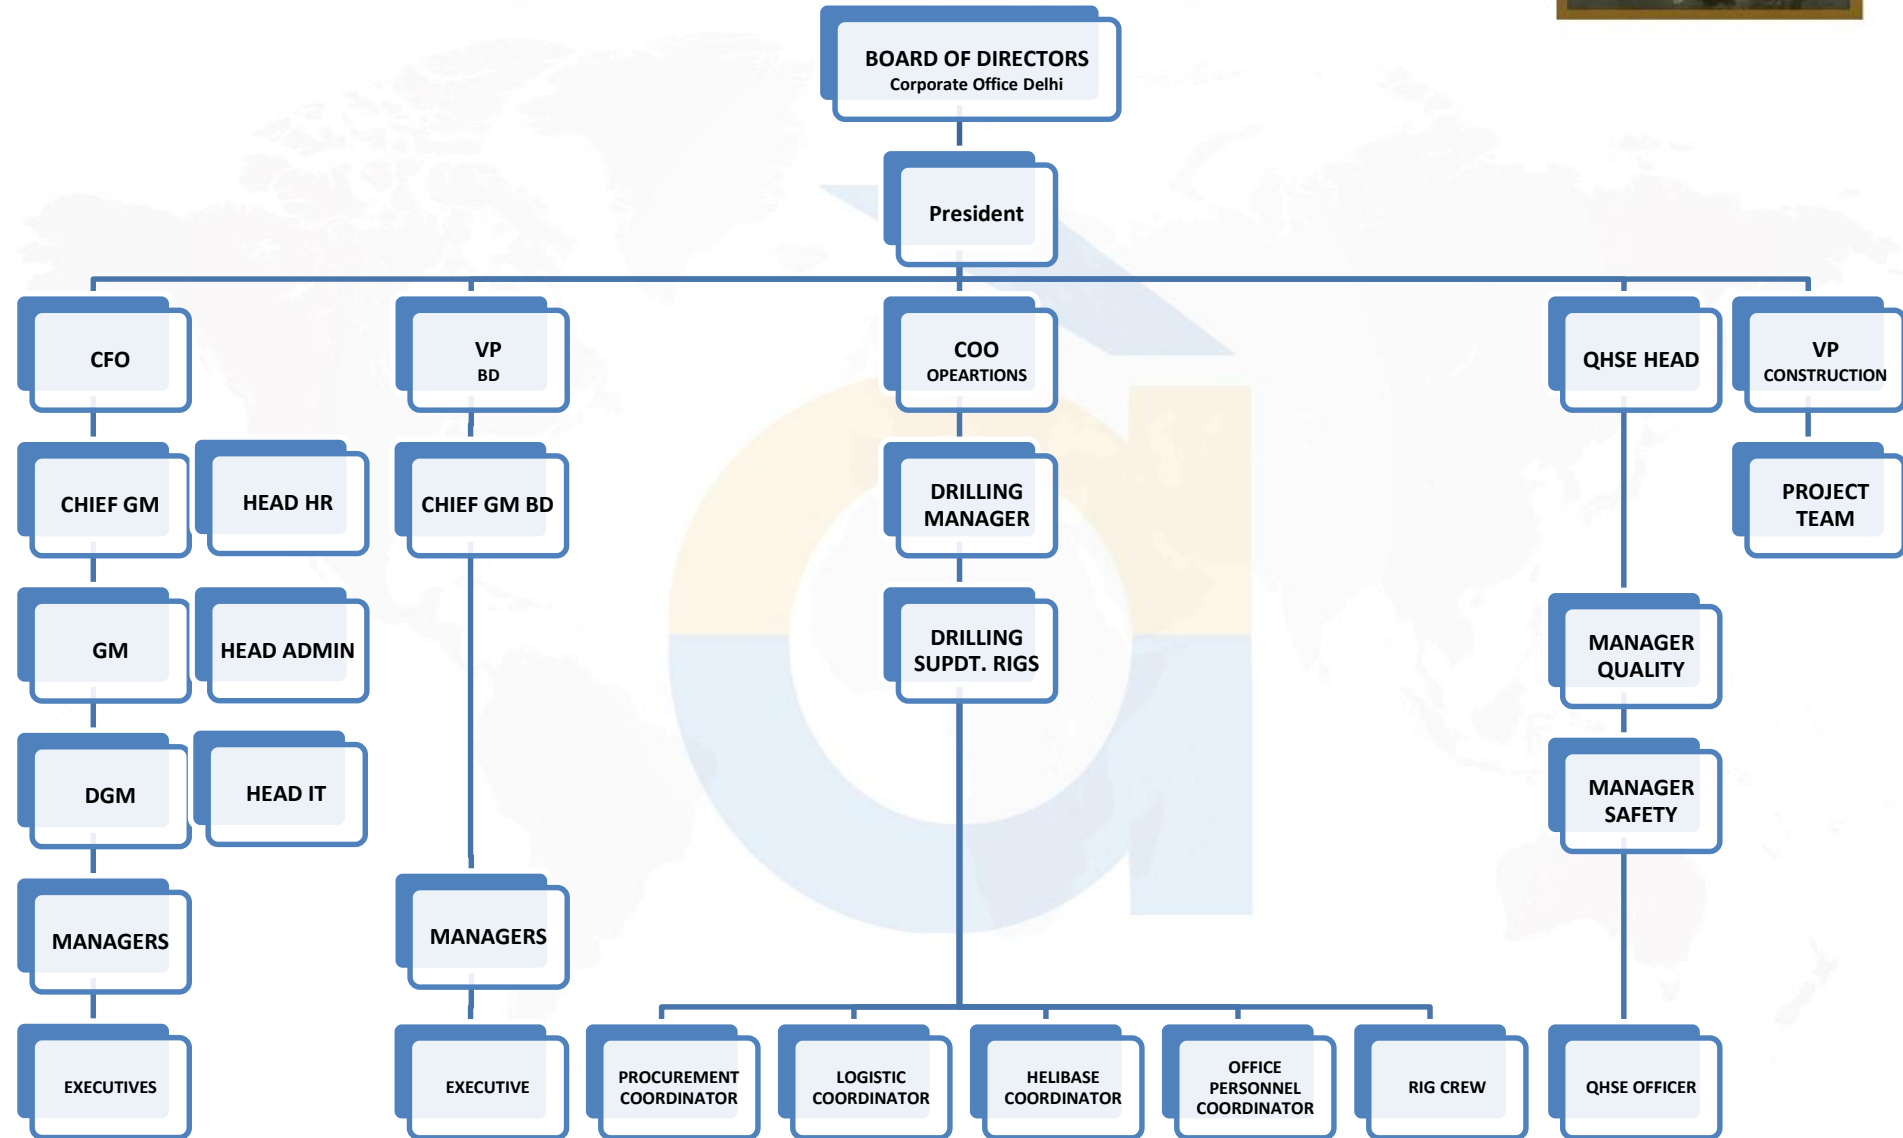

**Advantage**

# Overview

- Incorporated in India, One of the fastest growing ISO 9001, 14001 & 18001 offshore drilling contractor
- Management consists of prominent Industry leaders & professionals with excellent track record
- Over 36 Years of management experience in operating Jack Up rigs in India, Key Management leadership responsible for starting the leased rig concept in India
- Currently operating two 300ft Jackup rigs with ONGC on long term contract. Executed eight long term contracts of Jack Ups rigs & one long term contract for 1000ft floater with ONGC.
- In 2013 Company constructed 350ft New Generation Jack Up Rig in world renowned Keppel Shipyard, Singapore,
- A group company has constructed a 350ft Jack Up (Le Tourneau Super 116-E) at COSCO Dalian Shipyard, China.

# Organisational Structure

# Experienced & Seasoned Management

Key management team with vast industry experience

Ex-key members in ONGC/Reliance/Jindal Drilling and multinationals with the following credentials :-

- Operated up to 6 Jack Up Rigs and 1 Drill Ship.
- Negotiated more than 34 Rig chartering contracts in current and previous company in India.
- Supervised the construction of 3 KFELS B Class Jack Up rigs including Discovery-I and Virtue-I in previous company with enhanced capabilities to better suit drilling operations in India – All rigs delivered before schedule and on budget
- Managed ~99% operational uptime for Discovery-I and Virtue-I since delivery

**\*Rig Operated by sister concern Dynasty Oil**

- Oil Industry Safety Directorate (OISD), Offshore Regulatory Authority of India, approved QHSE management system in place in line with IADC guidelines for Offshore operations and other international benchmarked guidelines
- All rigs have gone through IADC & API safety cases to ensure the safety integrity for all operations. OISD has awarded Rig “Dynamic Vision” for “Best Overall Safety Performance in Offshore Rigs category”
- Well worked out bridging documents and safe practices on well barrier systems, emergency response plans and drills in place
- Comprehensive Training & Competence Management in place
- All safety audits are followed up by third party independent auditors and OISD auditors
- Emphasis on critical safety systems like Power Management System (PMS), Emergency Shutdown Systems (ESD), Fire & Gas detection systems and Life Saving systems
- ISO 9001:2015 (QMS), ISO 14001:2015 (EMS) & ISO 18001:2007 (OHSAS)

Comprehensive QHSE Management System based on OHSAS 18001/ HSG 65 Model incorporating elements from MODU/ SOLAS/ MARPOL / API/ OISD and others:

- Leadership and Accountability
- Organisation, responsibilities, resources, standards and documentation
- Evaluation and risk management
- Planning and procedures
- Occupational Health
- Implementation and performance monitoring
- Management of Change
- HSE Communication process
- Auditing and review
- Incentives
- Environmental Friendly Policy & Practices (MARPOL Compliant)

# Emergency Response & Security

- Team in place for proper addressing and mitigating measures for compliance to various contractual, regulatory and taxation issues
- Tested management systems in place for implementing Emergency response systems with Offshore Defence Advisory Group (ODAG), Oil Spill Containment agencies, MediVac infrastructure and other operation related services
- Management of Quick Response Team (QRT) for implementing , shore and rig based, the mandatory International Ship and Port Facility Security (ISPS) code
- Well established and networked Air and Marine Logistics support group in place
- Company Security Officer (CSO) in place for smooth coordination of all security related drills and observations with Ship Security and safety Officer (SSO) on board.
- All rigs voluntarily equipped with Automated Identification System (AIS)

# Asset Integrity Management

## Asset Integrity is based on these guiding principles:

- Robust and Audit based QHSE Management System
- Risk based and assessed Computerised Maintenance Management System (CMMS) with in-built Quality and safety modules
- IADC KSA (Knowledge, Skills and Ability) based Competency building and development of the most vital resource – Our People
- Location specific Emergency Response Plan management system

## Underpinning of the Asset Integrity Management System is

- A Competent Shore-based and Rig-based workforce backed by a responsive and responsible Company Management System
- *An integrating focus on People and Process Safety is the underpinning of all Business Goals*

# Safety Award to Dynamic Drilling's Rig

Dynamic Rig “Dynamic Vision” operated with ONGC was awarded the prestigious Oil Industry Safety Award (OISD) for “**Best Overall Safety Performance in Offshore Rigs category**” during the year 2014-15 by Mr. Dharmendra Pradhan, Ministry of State (Independent Charge) for Petroleum & Natural Gas in recognition of its overall Best Safety Performance.

# Performance Appreciation from ONGC

To,

The Drilling Superintendent

Valiant Driller

M/s: Dynamic Drilling & Services Pvt.Ltd.

This is to appreciate the excellent performance of the rig, its crew and leadership which has resulted in the rig achieving the record Commercial speed of 6138m/RM on Well no # N-23-4H, Platform N-23 and with good safety record in the entire campaign by good adherence to laid down policies and procedures. It is a pleasure to acknowledge the fact that the rig has bettered its own previous commercial speed record of 5031m/RM.

Keep up the good and safe work.

From	: Company Man, Dynamic Vision Drilling Rig	
To	: OIM, Dynamic Vision Drilling Rig	

## **Subject: LETTER OF APPRECIATION – DRILLING SPEED.**

On 13 November 2017, Rig Dynamic Vision has drilled 1215m in single day in well no VSEC#10, this is a new record performance for maximum meterage drilled in single day in 12-1/4" section. It is worth mentioning that in-spite of Hole inclination in this section varying from 58.8 to 66 Degree, the Average ROP achieved was 91.9 m/hr with highest quality of the profile and well cleaning.

This historical achievement could have not been possible without the sheer commitment and technical excellence of the Rig crew. I would like to take this opportunity to appreciate the effort made by the entire Rig crew. The following professionals are worth mentioning for their competence in executing their duties.

OIM

*Mr. Adrian Macphail*

Tool Pusher

*Mr. Baljeet Singh Bali*

*Mr. Parminder Kumar*

Drilling in 24 hrs.”**

# Noble Chairman Award

NOBLE SERVICES (SWITZERLAND) LLC

RUE DE L'ATHÈNE 8 • 1205 GENEVE • SWITZERLAND • +41 22 318 2000

23 August 2011

DAVID W. WILLIAMS  
CHAIRMAN, PRESIDENT AND CHIEF  
EXECUTIVE OFFICER

To the Noble Team:

It is my pleasure and privilege today to name the winners of the 2010 Chairman's Award. The Chairman's Award is presented to Noble rigs which have achieved outstanding results in the areas of Personal and Process Safety, Operational Efficiency and People Management. All of our rigs strived for perfection during a very difficult operating year, though as always, the Chairman's Award recognizes the Company's best.

For the 2010 award, the categories of East and West Hemisphere have been retired and replaced by a "Jackup" category and a "Semisubmersible/Drillship" category. The restructuring of the award categories was designed to ensure the Chairman's Award accurately reflects the demographics of Noble's offshore drilling fleet - both now and in the future. Also, the criteria used for the 2010 Chairman's Award has again seen further revisions to better reflect the key areas of our business that are critical to our long-term success.

I would like to recognize every member of the Noble team for their ongoing commitment to operational excellence. Several crews within the Noble team achieved a level of performance that was clearly exemplary. These crews set the benchmark for all of our rig operations. The 2010 Chairman's Award winners are as follows:

"Semisubmersible/Drillship"

"Jackup"

Chairman's Award

*Noble Ton van Langeveld*

*Noble Kenneth Delaney*

Runner Up

*Noble Max Smith*

*Noble Sam Noble*

Honorable Mention

*Noble Jim Thompson*

*Noble George McLeod*

In the Semisubmersible/Drillship category, the *Noble Ton van Langeveld* in the European Division stood out, finishing the year with no High Risk Potential events, a Total Recordable Incident Rate (TRIR) of 0.00 and very little downtime. The rig continues to work a multi-year shared drilling program for Maersk/Centrica and maintained 98.4% utilization while contracted.

In the Jackup category, the *Noble Kenneth Delaney*, working in the Middle East and India Division, completed 2010 with no serious unplanned events (average Risk Potential of "Low") and a Total Recordable Incident Rate (TRIR) of 0.00. With the 2010 Chairman's Award we are specifically measuring Process Safety as an award criterion. In this regard the *Noble Kenneth Delaney* closed out 100% of all maintenance work orders on Safety Critical Equipment.

These rigs and their crews represent the very best in a company that demands only the highest standards of operational excellence. I am very proud of their hard work and consistent efforts to provide Noble with exceptional results.

Please join me in congratulating the crews of these rigs on a truly outstanding job.

Keep up the good work,

  
David W. Williams

## 23 August 2011

In the Jackup category, the ***Noble Kenneth Delaney***, working in the Middle East and India Division, completed 2010 with no serious unplanned events (average Risk Potential of "Low") and a Total Recordable Incident Rate (TRIR) of 0.00. With the 2010 Chairman's Award we are specifically measuring Process Safety as an award criterion. In this regard the ***Noble Kenneth Delaney*** closed out 100% of all maintenance work orders on Safety Critical Equipment.

# Strategic Alliance

**Paragon** is the leading provider of standard specification offshore drilling services and owns a fleet of 40 rigs and operate in five continents.

**Noble Corporation** is one of the largest Drilling Contractor in World. Company started its operation in collaboration with Noble in India.

**Ezion Holdings** is a Leader in the development, ownership and chartering of strategic offshore assets, Bought multiple Standard rigs

**SEACOR Holdings Inc.** (SEACOR) is a diversified, multinational company that owns and operates marine and aviation assets primarily servicing the oil and gas, industrial aviation, and marine transportation industries,

**Keppel Corporation**, Singapore - World Leader in Offshore Construction and Shipbuilding and has received equity investment from the same in its asset owning company
